

# **ITS Technical Notes**

## **Windows Enterprise Announcement**

### **October 21, 2008 – User Container Rename Completed Oct 21**

ITS has completed "regularizing" the user container names in the Windows Enterprise domain on October 21, 2008. The general "Users" and "Students" containers were completed October 20. The remaining college/departmental containers were completed about 9:32 AM October 21.

As previously announced, the only user containers renamed were those based on ISU NetIDs ("non-bang" user accounts). ITS can correct bang-account ("!username") accounts for specific college/departmental OUs upon request by the OU Admin (they will not be done otherwise). If you want your college/departmental bang-accounts processed send an email request to [skunz@iastate.edu](mailto:skunz@iastate.edu).

See the following announcement for full details on what was done:
