Windows Enterprise Announcement

Dec 12, 2011 – New TechNote: Adjusting SCCM Boot Images – Time Zone Problem Mitigation

A new TechNote is available dealing with SCCM boot image problems that result in the time zone being set incorrectly on imaged systems (updated components are available). The new TechNote is titled "Adjusting SCCM Boot Images – Time Zone Problem Mitigation" and is located in the OU Administrator pages under the "General System Deployment" section here:
