Windows Enterprise Announcement

July 2, 2013 – WINDC1 Unavailable 2013-07-09 for Upgrade

ITS will upgrade WINDC1 to a 64-bit operation system on July 9, 2013. WINDC1 (windc1.iastate.edu, 129.186.6.1) may be unavailable for most of the day.

The current status of the Windows Enterprise Domain Controller upgrades is:

WINDC5 -- Completed Jan 8, 2013
WINDC3 -- Completed Jun 11, 2013
WINDC2 -- Completed Jun 18, 2013
WINDC1 -- Scheduled Jul 9, 2013
WINDC4 -- Scheduled Jan 21, 2014

For complete details on how this may affect you (including RHEL5, RHEL6, NFS4, and AFS Implications) see the full announcement at:
